

Join us for a

**KAYAK PADDLE IN  
BEAVER BAY**

***Date: Saturday, July 27 ( rain date Sunday, July 28)***

***Time: 10:00 am***

***Place: Beaver Bay, 476 North Shore Road***

The Summer Fest committee is putting together a kayak paddle to explore invasive and native plants found in Peck's Lake. Members of the PLPA Aquatic Invasive Species subcommittee will take residents out on July 27 (rain date July 28) to discover which plants are invasive along the shorelines and bays.

We will begin at 10:00 am in Beaver Bay. Karen Jones has invited us to start at her house where there is a sandy beach to bring your kayak to launch. Another option is to paddle to her house and meet us there. We have a few extra kayaks for those that need them.

Call or text **Donna at 845-797-1074** with any questions or to reserve a kayak. Registration is not required.
